

We are so pleased with the experience our son has had while taking the Study Skills course at Tutor 180. His grades – and his confidence – have improved since taking the course. As a freshman in high school and taking several AP classes, he was struggling with keeping schedules, study time, and especially note taking. Your course provided him with the necessary skills to keep him on track. Thanks for EVERYTHING!!!!

--Patty Sides, Parent, Cedar Park, TX

I just wanted to take a moment to express my appreciation for the help you provided Amanda the past few months. As you know, Amanda needed quite a bit of help in Geometry when we first spoke, but after receiving the tutoring you provided, her grades improved drastically. I have been very impressed with your methodology for providing the tutoring and very much appreciated your timely and ongoing feedback throughout the relationship.

As you well know, its sometimes difficult to get a good match between teacher and student, but I can tell you that from the start, Amanda could see the benefit of the tutoring and enjoyed seeing you. If, in the future, we ever need any further tutoring, you'll be the first person I call. Thanks again for all your help.

--Jim Wade, Parent, Austin, TX

"We were fortunate to have Suzy referred to us by the director of the math department at the high school. My son has always hated math and seemed to struggle with it from time to time. Suzy helped him immensely to get through all his math courses and prepare for the SAT exam. He increased his math score on the SAT by 100 points and has been accepted to Texas A&M University. We just can't thank Suzy enough for her role in all of this and for her concern and caring. If your child is struggling, don't wait as long as we did to get help. Your time and money will be well spent."

--Cheryl Durr, Parent, Austin, TX

---

"Suzy was an answer to my prayers. My son was struggling tremendously in Algebra II, and he needed more help than his teacher or I could give him. Suzy provided him with the knowledge, skills, and encouragement that he needed to be successful. For her, math is obviously not just a subject, but a passion, and her students are just as important as the equations. She enthusiastically worked with my son, often giving him a few extra minutes to help him better understand a difficult concept. It was a blessing to see how much she really cared about my son. I highly recommend her to all of my friends who have students that are having difficulty with any level of mathematics. Because of her help, my son was able to pass each six week grading period in Algebra II."

--Terri White, Parent, Leander, TX

---

"If you are like me, math is one of those great challenges in life that is simply too challenging to take on alone. Mrs. Mahoney helped me more than any math teacher at my high school, and even knew easier ways to do the problems. She was a Godsend to my prayers for help, and without her, I would be in my second year of Algebra II. Her patience is unparalleled, and she is as nice of a person as I have ever met."

--Brian White, Student, Leander High School

---

"Rachel has become more confident in her advanced geometry class since beginning her tutoring sessions. Suzy does a great job of explaining concepts to her and giving her extra work to reinforce them."

--Becky Thurner, Parent, Cedar Park, TX

---

Brianna Davis said "she liked your program because you taught math with fun games." She said "they teach math...and its fun too". I felt like I learned something with each visit."

Terence Davis says "the math program is professional, hand tailored, and enticing for eager learners. Although my daughter did not "need" a tutor according to school standards, the program breeds confidence and good results."

--Terence Davis, Parent, Cedar Park, TX

---

"Since I have started tutoring, I have found myself more confident and doing better in my grades. I have been doing better on tests and quizzes and I understand things more clearly."

--Rachel Thurner, Student, Cedar Park High School

---

"As both a parent and teacher, myself, I am equally impressed with Suzy Mahoney's teaching strategies and her genuine interest in my son's overall success. Through providing support of the curriculum content, as well as, instructing the use of important test-taking/study skills, she has increased my son's confidence, immensely."

--Diana Field, Parent, Leander, TX

---

"Mrs. Mahoney is a great tutor and teacher. She is very focused during our tutoring time which helps me to stay focused. She is really interested in my questions and cares about me doing my best on my math work and tests. She helps me so that I feel confident and ready to go to class and do my assignments."

--Brian Field, Student, Leander High School

"Suzy briefs me after each tutoring session on how well my daughter understood the material and what she needs more practice on. My daughter has gained more confidence in her problem solving abilities and is more sure of her answers."

--Kelly Galea, Parent, Austin, TX

---

"Suzy tells me what I need to do and why I need to do it so I can understand. Since going to Suzy, my average in math went up by almost ten points and my grades have been between an 89 and 92 ever since."

--Toni Galea, Student, Westwood High School

---

"Suzy Mahoney has provided extraordinary tutoring services for our daughter. She is a devoted, intelligent teacher who knows how to motivate her students and help them to achieve their highest potential in the classroom. We are very pleased with the high quality of services our daughter received from Suzy, and recommend her tutoring services to anyone struggling with Algebra."

--Marci Henna, Parent, Volente, TX

---

"Suzy has helped Lauren improve her grades tremendously. Lauren is now so much better prepared for quizzes and tests."

--Marianne Galea, Parent, Cedar Park, TX

---

"Apart from being a great math teacher, Suzy is also a wonderful person. She makes the tutoring session enjoyable."

--Lauren Galea, Student, Cedar Park High School

---

"While taking Advanced Algebra II my sophomore year, I ran into trouble. I was struggling in the class. My teacher gave me Suzy's number, but I hesitated to call. Junior year, when I started Pre-Calculus, I began to see I'd need a tutor. I remembered Suzy and gave her a call. As of now, I'm making a mid-range B and when I started the class I was making a low C. Not to mention now when I take a test, I'm much more confident, and performing at a much higher percentage. Suzy is fun, kind, and really cares about the kids she's tutoring. When in doubt, give her a call."

--Amanda Moore, Student, Cedar Park High School

We would like to take the opportunity to cite some strong words from the State of the Union Address delivered by President George W. Bush on January 20, 2004. We at Tutor180 share the President's commitment to the education of our children:

"All skills begin with the basics of reading and math, which are supposed to be learned in the early grades of our schools. Yet for too long, for too many children, those skills were never mastered."

"Many of the fastest-growing occupations require strong math and science preparation, and training beyond the high school level."

"We are requiring higher standards. We are regularly testing every child on the fundamentals. We are reporting results to parents, and making sure they have better options when schools are not performing. We are making progress toward excellence for every child."

"...the results we require are really a matter of common sense: We expect third graders to read and do math at third grade level -- and that is not asking too much. Testing is the only way to identify and help students who are falling behind. This Nation will not go back to the days of simply shuffling children along from grade to grade without them learning the basics. I refuse to give up on any child."

--George W. Bush, President of the United States
